Hot Air Ballooning - Full Day Cappadocia with Underground City, Red Valley and Pigeon Valley

Our Balloons staff will transfer you from your hotel at a time that was agreed on a day before. You'll begin your adventure just about sixty minutes before sunrise at our meeting spot or Take Off Site. You will be able to watch our pilots and crew inflating the balloons and preparing for take-off. When you are comfortably in the basket, your pilot will give a full flight safety briefing, explaining the landing procedures. Weather is normally very calm in this region but we always prepare passengers on safe landing positions. Cappadocia has one of the most famous and photographed landscapes in the world. Wind and water have eroded the soft volcanic rock of the region into the fantastic valleys, formations and columns of stone known as 'fairy chimneys'. From the air, the view is matchless, revealing itself as your balloon ascends to up to approximately 4000ft. After approximately one hour your pilot will determine a suitable landing site - one with easy access for the crew and your minibus. The pilot will remind you of the landing procedure, and then bring the balloon back down to earth, gently... Afterwards you will be transferred to your hotel at around 09:00 am. (Time is changing depend upon season) Depart from your hotel to visit Red valley through Cavusin and explore the famous rock-cut churches and hike 2 km. Then visit Cavusin village. Old Cavusin was abandoned several decades ago due to avalanches. The current village of Cavusin is located on the road. Old Cavusin, with its rock-cut dwellings and stone houses, had several hermitages. After lunch drive to the Pigeon Valley. In the afternoon visit Underground City, where early Christians lived in fear and faith. The houses in the village are constructed around the nearly one hundred tunnels of the underground city, which is one of the most interesting underground settlements in Cappadocia. The underground city was originally carved out as eight floors; however four floors are available to visit. In wartime about 5000 people can refuge in. The tunnels are still used today as storage areas, stables, and cellars.
