Elephant Beach is a small pristine beach, rather remotely located; it can be reached by boat. The beach is also an extremely good place for Snorkeling with an easily accessible house reef, which boasts of beautiful corals and other marine life. The beach has also emerged as Havelock's favourite spot for scuba diving. It is tailor made to be a beginner's dive site. One can just walk straight from the beach and on to the spot where divers practice. Just 40 min by boat, this beach offers snorkelers calm blue shallow waters and is the perfect spot for beginner snorkelers. The boat goes right up to the beach and it's so easy to slip on your gear and just start snorkelling (5 mins free & additional snorkelling at extra cost). It's also a great place to just spend the day lying on the beach and relaxing. The Kalapathar beach is situated on one corner of Havelock Island. The beach gets its name from the surrounding village, which is Kalapathar Village and the black rocks (known as Kalapathar in Hindi) that adorn the coastline here.
